CPC16: Benefits of failure statistics and measurement equipment for maintenance planning

Postdoc: Per Westerlund, perw@kth.se
Supervisors: Patrik Hilber (KTH), Tommie Lindquist (Svenska kraftnät)
Collaborator: Jesper Rydén, Sveriges lantbruksuniversitet

Project funded by:
Age + number of operations + type + function $\rightarrow P(\text{failure})$
Condition of disconnectors

Start (upper) and end (lower) of the curve of the motor current (Fig. 6 in [Rassam, KTH, 2020])
